

RAHUL SINGH

ANDROID & HYBRID MOBILE APPLICATION DEVELOPER

Pune, Maharashtra, India • +91 7880526006 • rahul.cs6765@gmail.com
LinkedIn: [linkedin.com/in/singhmzp](https://www.linkedin.com/in/singhmzp) • GitHub: github.com/mrsinghmzp

SUMMARY

Android & Hybrid Mobile Application Developer with hands-on experience in Java, Android SDK, React Native, and RESTful API integration. Built and published mobile applications on the Google Play Store, with experience in Activities, Fragments, RecyclerView, Room Database, state management, and backend integration. Experienced in integrating Google Gemini API to develop AI-powered application features. Strong foundation in Object-Oriented Programming, Data Structures, DBMS, and mobile application architecture through C-DAC PGCP-MC training.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), SQL, Python
- **Mobile Development:** Android SDK, Android Studio, React Native, Activities, Fragments, Intents, RecyclerView, Room Database, SQLite, Retrofit
- **Frontend:** React.js, React Native, Context API, React Navigation, Responsive UI, FlatList, Virtualization, Component Optimization
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT Authentication, Firebase, Cloudinary
- **AI & API Integration:** Google Gemini API, AI-powered Mobile Features, RESTful APIs, Third-Party API Integration
- **Databases:** MySQL, MongoDB, SQLite
- **Developer Tools:** Git, GitHub, Postman, Linux, Gradle

FEATURED PROJECTS

CityConnect — Smart City Civic Management Platform

Tech Stack: React, React Native, Node.js, Express.js, MySQL, JWT, REST APIs | [GitHub Repository](#)

- Built an enterprise-grade full-stack civic application enabling geotagged issue reporting with GPS verification and photo uploads.
- Implemented secure JWT authentication and granular Role-Based Access Control (RBAC) for citizens and municipal administrators.
- Integrated real-time analytics dashboards, public opinion polling, emergency dispatch alerts, and parking management sub-systems.

AI Resume Analyzer — Automated ATS Evaluation & Career Insights

Tech Stack: Python, Streamlit, Google Gemini API, NLP, PDF Parsing | [GitHub Repository](#)

- Engineered an AI platform utilizing Google Gemini API and NLP pipelines to parse candidate resumes against job descriptions.
- Computed real-time ATS match scores, identified skill gaps, and generated automated personalized career improvement roadmaps.
- Designed an interactive Streamlit UI rendering instant visual metric breakdowns with sub-second API execution.

Kranti App — Smart Agricultural & Business Assistant

Tech Stack: React Native, Context API, Node.js, MongoDB, Cloudinary, REST APIs | [Google Play Store Link](#)

- Developed and published a cross-platform **React Native mobile application** on Google Play Store, implementing modular features with Context API, React Navigation, reusable components, and RESTful APIs.
- Built **Node.js/Express.js and MongoDB backend APIs** for financial tracking, production records, ROI calculations, and integrated external weather services for real-time data.
- Optimized mobile performance using FlatList and Cloudinary image caching for efficient data and media handling.

EDUCATION

Post Graduate Diploma in Mobile Computing (PGCP-MC) Feb 2026 – Aug 2026

C-DAC's Advanced Computing Training School (ACTS)

Score: 209 / 280 (74.6%) | Core Modules: Mobile Programming, Hybrid Mobile Apps, AI on Mobile Platforms, Web Java, Data Structures & Algorithms, OS & Linux Concepts.

Bachelor of Technology (B.Tech) in Computer Science & Engineering May 2021 – June 2025

Khwaja Moinuddin Chishti Language University, Lucknow, UP

Grade: First Division (73.43%)

CERTIFICATIONS & LANGUAGES

- AI Transformative Learning Program — Microsoft & SAP (TechSaksham)
- Languages: English (Professional), Hindi (Native) | Interests: Open Source, Cricket, Cooking
